

Aloha Animal Hospital wants you to

STAY COOL THIS SUMMER!

June 2017 is hot weather awareness month. We want your pet to be safe during these upcoming hot months!

Aloha Animal Hospital wants to remind pet parents to be aware of the dangers of heat exposure. Heat stroke can occur when your pet has prolonged exposure to high temperatures.

The most important thing is to make sure your pet has access to plenty of drinkable water and a cool, shady place to rest. You both can take a dip in the ocean or get a kiddie pool to relax in! Even a summer hair cut could help your pet keep cool, while looking cool!

If you suspect your pet has heat stroke, come in or give our office a call as soon as possible to set up an exam and treatment.
