

MARCH

HEALTHY HABITS MONTH

CREATING HEALTHY EATING AND EXERCISE HABITS

For the month of March we are promoting healthy life choices for your pet! We want to emphasize feeding a nutritional diet, selecting healthy treat options and exercising every day! This means breaking out the Frisbee to play fetch with Fido!!

Obesity is a major concern that can lead to a variety of health issues- including arthritis, diabetes, joint and heart problems. Creating healthy habits is important to preventing these diseases and helping your pet to live a long, happy, and pain-free life!

MARCH 1ST- 31ST
